CAREER SUMMARY

Pragmatic problem-solver who prefers building local, infrastructure-aware solutions from scratch. Compassionate collaborator who values practical outcomes and clear, maintainable work. Enjoys reading novels, epics, and comics; likes scripting and tinkering with operating systems as hobbies.

EDUCATION

Bachelor of Technology, CSE, 2027
Institute of Technical Education and Research,
Siksha 'O' Anusandhan
CGPA: 9.41 till 5th Semester

Senior School Education, 2023
Central Board of Secondary Education,
Kendriya Vidyalaya, Rayagada
Percentage: 78.16 %

Secondary School Education, 2021
Central Board of Secondary Education,
Kendriya Vidyalaya, Rayagada
Percentage: 92.5 %

INTERNSHIP EXPERIENCE

Internship at National Aluminium Company Limited June 2025 — July 2025
- Developed a Resource Management System using the LAMP stack, enhancing web development and database integration skills.
- Focused on database management, networking, and data centre/disaster recovery operations.
- Gained insights into data security and disaster recovery best practices.

Internship at Samsung PRISM Program November 2025 — Present
- Engineered an AI-driven visual verification platform that automates screenshot capture for mobile and web applications to identify meaningful UI discrepancies.
- Leveraged open-source vision and language models to provide human-readable explanations of visual changes and classify them as bugs or expected updates.
- Optimized the quality assurance lifecycle by developing a React-based dashboard for interactive diff reviews, significantly reducing manual verification bottlenecks and false positives.

SKILLS

Technical Skills: Java, Python, C, C++, Bash, PowerShell, MySQL/MariaDB, PostgreSQL, Cloud Management, Version Control Systems, Linux Server Management, Windows Server Management, Computer Networking

Soft Skills: Communication, Teamwork, Critical thinking, Time management, Leadership, Adaptability

Language Proficiency: English, Hindi, Odia

EXTRACURRICULAR ACTIVITIES

ITER MUN 2024

Institute of Technical Education and Research

IEEE R10 PES Global Workshop 2025

Kalinga Institute of Industrial Technology

AICSSYC 2025

Amity University

PROJECTS

Linux Setup Script: <https://github.com/ayu2805/lss>

August 2024 — Present

- Developed a script to automate the setup of Arch-Linux and Fedora after minimal installation, streamlining the configuration process for users.
- Developed and open-sourced Arch Linux and Fedora post-install automation script on GitHub to streamline my personal setup.

Windows Setup Script: <https://github.com/ayu2805/wss>

December 2024 — Present

- Created a script to automate essential software installation post-Windows setup, improving user efficiency.
- Developed and open-sourced Windows post-install automation script on GitHub to streamline my personal setup.

AI-Enabled Visual Quality Assessment Platform:

November 2025 — Present

- Designed a system to maintain UI consistency across various devices and screen resolutions by creating automated visual baseline galleries.
- Integrated Maestro Framework with a Python backend to facilitate seamless screenshot automation and data management via MySQL/MariaDB.
- Implemented policy-based auto-approvals and accessibility checks to ensure rapid design updates and feature launches do not compromise user trust or brand perception.
